PROFESSIONAL SUMMARY

Full-stack Software Engineer with 3+ years of professional experience building enterprise web applications using **Vue.js** and **C#.NET**, with additional hands-on experience developing **React** applications. Strong background in front-end state management, **RESTful API** design, and **SQL**-backed systems. Graduated Summa Cum Laude from RIT (GPA 3.93).

TECHNICAL SKILLS

- **Front-end:** JavaScript (ES6+), Vue.js (Vuex/Pinia), React.js, Vuetify, MUI, CSS
- **Back-end:** C#, RESTful APIs, .NET, SQL, Java
- **Tools:** Git, Visual Studio, GitHub Copilot

PROFESSIONAL EXPERIENCE

Osmose Utilities Services | *Software Engineer* Jan 2022 - July 2025

- Designed and implemented front-end features for multiple enterprise web applications using **Vue.js**, leveraging **Vuex** and **Pinia** to manage complex, data-driven application states.
- Maintained and optimized **C#.NET** back-end services, improving reliability and performance of server-side data processing pipelines.
- Developed and refined **RESTful API** endpoints to effectively manage, retrieve, and display information from existing **SQL** databases.
- Collaborated in a high-velocity **Agile** environment, working closely with developers and QA to deliver production features on regular release cycles.

TECHNICAL PROJECTS

Fitness Tracker Web App | *Sole Developer* Jan 2026 - Present

- Built a full-stack fitness tracking application using **React**, **Vite**, and **Firebase**, enabling users to log workouts, track nutrition, and monitor weight progress
- Developed social community features including a real-time activity feed, reaction system, and profile commenting using **Firebase Firestore**

Emoji Mini-Games App | *Sole Developer* July 2025 - Aug 2025

- Architected a modular web application using **React**, implementing hooks and functional components to manage complex UI states and lifecycle methods.
- Designed intuitive UI/UX workflows utilizing emojis to drive game mechanics.

EDUCATION

Rochester Institute of Technology (RIT)

Bachelor of Science, Game Design and Development

Graduated May 2022

GPA 3.93
